

Town of Marshall Comprehensive Planning

In 2006, the Town of Marshall Planning Board began the process of revising the Master Plan. The plan written in 1967 is outdated and a new one waits to be written. We have the desire and the right to create the kind of community that promotes a better quality of life for our children and the many generations thereafter.

In order to fulfill this goal, an investment needs to be made. Your ideas, concerns and time are valuable to this process. Please invest them. Over the next several months you will be given opportunities to voice your opinions; a community survey will be one of the opportunities that we hope you will participate in.

The planning board will diligently piece it all together, but the content will be derived from you. Please feel free to send any ideas or suggestions that you might have to:
